# Editor Essentials

Important information to be aware of before you start using the Hyatt Editor

## Fundamental Points

- The Editor is a web-based content management application, built specifically for Hyatt hotel websites. It is accessible via [www.thehyatteditor.com](http://www.thehyatteditor.com).
- The system does not utilize a test or staging environment. Any changes which are made in the Editor will automatically go live within 24 hours (period required for Hyatt to refresh all production caches).
- Deleting content from the Editor removes from the database completely.

## The Editor Landing Page

Agencies with Administrator access should only utilize the following fields on the landing page:

- Language – established which language sites the user will be editing
- Hotel Selection – established which particular property site the user will be editing
- Edit Gallery Images – allows the user to update the hotel's photo gallery

**All other fields on this page must only be accessed by the Hyatt eCommerce Content Team**

## Hotel Editing Menu

While some of the following section may be accessible in the Hotel Editing Menu via the Administrator login, these are only to be updated by the Hyatt eCommerce Content Team.

- All Rooms & Rates information
- Meeting Special Offers (under Meetings & Events)
- Sections (bottom of the Hotel Website Content Menu screen)

## Navigation

When inside the Hotel Editing Menu for a specific hotel, click the “home” link (with house icon) on the top right-hand corner to return to the initial Editor landing page.

## Character Limits

All fields have pre-set character limits. If the limit is exceeded, the system will display an error pop-up when the user attempts to save the content. **Character limits include all spacing and formatting.** The User Manual which Hyatt will provide will include all applicable character limits.

## Input Fields

The Editor features different types of input fields:

### With a Tool Bar (or “WYSIWYG”)

Most main body fields will include a tool bar in order to allow basic formatting and creation of links.

### Without a Tool Bar

Fields such as title, intro text and admission fields will not feature a tool bar. However, most can accommodate HTML tags in order to insert formatting.

The screenshot shows a form with the following fields:

- Activity Name:** A text input field.
- Intro Text:** A text area with a vertical scrollbar.
- Activity Description:** A text area with a vertical scrollbar and a rich text editor toolbar above it. The toolbar includes icons for bold, italic, underline, link, unlink, list, and other formatting options. A note above the text area states: "This text appears on your activities landing page when you display this as 1st priority."
- Is Featured Activity:** A dropdown menu currently set to "yes".
- Admission Text:** A text area with a vertical scrollbar.
- Footer:** A small text label that reads "Include pricing information here if applicable."

## New Images

If a hotel requests to utilize an image which is not available with the Editor, please contact the Hyatt eCommerce Content Team. All images requested by hotels must be available within Hyatt’s image database, [Hyatt Brand Manager](#) (HBM). Hotels are aware of this requirement.

HBM uses a uniform image reference codes for hotel image files, which the hotel must provide the Hyatt eCommerce Content Team in order to load the image to the Editor.

### Example

The file format will look like this – BERGH\_P227

BERGH is the 5-character “Spirit” reference code for Grand Hyatt Berlin. Each hotel has a unique Spirit code

P227 is the picture number for this image file in HBM

## Overview Text

If an overview text needs to be created in a section which does not currently feature this field, the initial set-up must be handled by the Hyatt eCommerce Content Team. Once the overview text field has been created for that page, the agency can make any subsequent updates to the text.

## RESTAURANTS

While relaxing in Hua Hin, fresh seafood is one of the not-to-be-missed delights and the four restaurants at Hyatt Regency Hua Hin include seafood specialties on their menus to ensure that guests enjoy the freshest catch of the day ... every day. Figs offers Italian dishes and a special seafood menu for dinner, while Talay Thai proudly presents home-style Thai cuisine with the highlight a seafood basket that allows guests to choose their favourite items that are then cooked in their preferred style. You & Mee Noodle Shop showcases Asian noodles and comfort food, along with views of the pools and the ocean. For a more chilled-out atmosphere, McFarland House – an historical home in Hua Hin – features Thai and Western cuisines, including seafood items, served tapas style, along with a wide selection of wines available by the glass, as well as refreshing beverages.

For information and reservations, please call +66 3252 1234 or e-mail [huahin.regency@hyatt.com](mailto:huahin.regency@hyatt.com).

### Figs Restaurant

Enjoy a variety of flavourful Italian dishes, both indoors and alfresco, at Figs Restaurant Hua Hin. This Thailand beach resort restaurant features an international breakfast buffet and a la carte or set Italian for dinner.

## Hotel Pages

In order for content to display properly on-line, a Hotel Page for the respective website page needs to be present in the Editor. All existing on-line web pages will have a Hotel Page in the Editor. These are viewable via “**Manage Masthead Images**” within the Hotel Editing Menu.

### New Content - English

If content is entered into the Editor which will result in a brand new page\* appearing on the hotel’s English site, the respective Hotel Page will be created automatically in the Editor. However, the masthead image will need to be manually assigned.

### New Content – Translated

If content is entered into the Editor which will result in a brand new page appearing on the hotel’s translated language site, the agency will need to contact the Hyatt eCommerce Content Team, to create the corresponding hotel page in that language.

## World Wide Guides (WWG)

In addition to full translated and “slim” sites, Hyatt hotels feature a 3-page abridged mini-site, called the World Wide Guide (WWG).

These pages offer an overview of each hotel’s facilities, translated in Hyatt 9 core translated languages.

The translated text is based on an English source file, which is managed by the Hyatt eCommerce Content Team.

\*if the hotel has a full translated language site in one of the languages (e.g. French), it will not feature a WWG in that language.

The screenshot displays the 'Grand Hyatt Berlin' website. At the top, there's a navigation bar with 'GRAND HYATT BERLIN' and a menu with 'TARIFS ET RÉSERVATIONS', 'INSTALLATIONS ET SERVICES', and 'PLANS ET ITINÉRAIRES'. Below this is a large image of the hotel lobby. The main content area is divided into two columns. The left column, titled 'Chambres et tarifs', contains a reservation form with fields for 'Date d'arrivée' (janv. 2012), 'Date de départ' (janv. 2012), 'Nombre d'adultes par chambre' (1), 'Nombre d'enfants par chambre' (0), and 'Nombre de chambres' (1). It also includes a 'Code de l'offre spéciale' field, a 'Numéro de groupe / d'entreprise' field, and a 'Type de tarif' dropdown menu. A 'VÉRIFIER LA DISPONIBILITÉ' button is at the bottom of this section. The right column, titled 'Présentation de l'hôtel', provides details about the hotel's location, amenities, and services. It mentions the hotel's proximity to the airport and the Reichstag, and lists facilities like a spa, gym, and restaurant.

## Hotel Editing Menu

This page gives you access to all the information you have access to edit via the Editor.

- You can click anywhere on the green tool bar to expand and contract the window.
- If you take a look at your online Hyatt.com site, you will see that most of Editor sections correspond with your online left hand navigation. This is an easy way to figure out where the information will populate once it goes live.
- Though you have access to Rooms & Rates, please keep in mind that this section should only be updated by the Hyatt eCommerce Content Team. To deliver a consistent message to online customers, Hyatt has partnered with Edel to write the room descriptions for Hyatt.com. In order to maintain the content, the Hyatt eCommerce Content Team needs to review any changes made to these fields. This information is also integrated into Hyatt's on-line booking engine.

For changes to the Rooms & Rates page, as well as Special Offers, please contact the Hyatt eCommerce Content Team.

The screenshot shows a web interface titled "General Hotel Information". Under the "Hotel Profile Trans" section, there is a link "Edit Hotel Profile Trans". Below that, the "News Event" section is visible. It contains a link "Edit News Event" and a table of news events. The first row of the table is highlighted with an orange box.

Below the table, there is a link "Create News Event".

- Update News & Events article fields as required
- Once completed, click “**Save**”

## Considerations

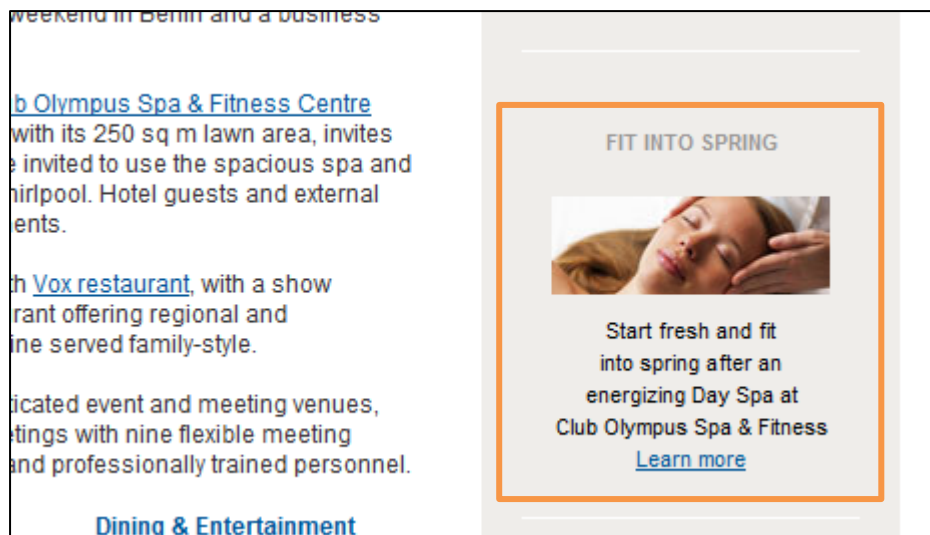

- The Hotel News & Events section includes 2 article links on the home page and another link (“View All News & Events”) for the Listings Page. The article specific home page links will display the first 2 articles assigned in the Listing page. Therefore, the 2 most relevant articles should be given the first and second slots.

- The home page Listings Page link will only appear when 3 or more articles have been loaded to the site.
- There is no limit to the number of Hotel News & Events articles which can be posted on the site. If attempting to assign order when there are more than 10 articles:
  - o You can assign the same display order to more than one article
  - o The articles under the same allocation number will then display based on the alphabetical order of their title fields (News Event Name)
- The masthead image for the News & Events detail pages will be the same across all article ie. Custom masthead images cannot be assigned to each article.

## Home Page Promotional Slots

**Definition** Concise link with small image to improve visibility of specific hotel features (Spa/Activities/Restaurant Site/Meeting Offer/Key Partnership/Event). Promotional Slots will appear on the right-hand column of the home page and Hotel News & Events Listing page.

## Photo Gallery

### Definition

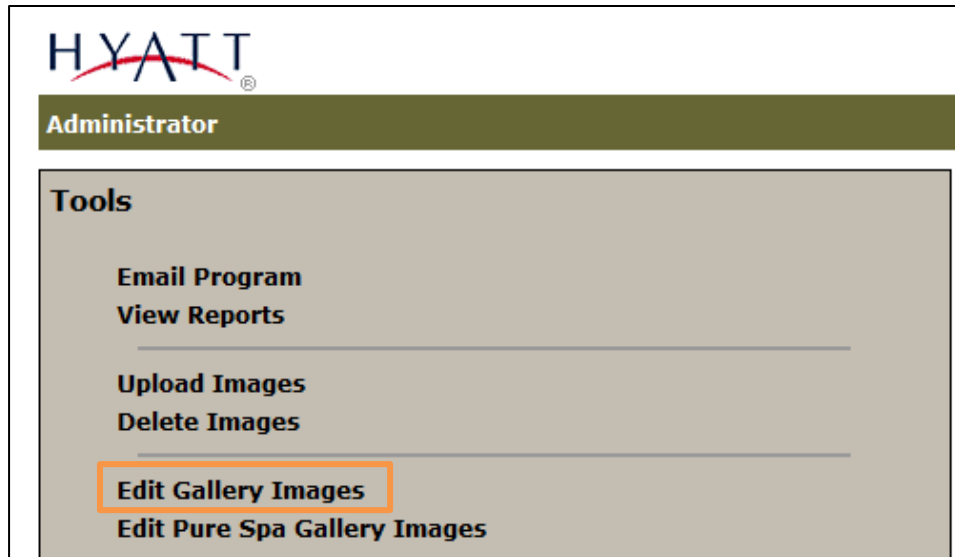

Central hotel image gallery, highlighting public areas, restaurants/lounges, rooms/suites, activities and events facilities. Gallery is accessible through the site via the “Photos” link under the masthead image.

**Editable by Agency?** Yes

**Update Process**

- Proceed to the Editor Landing Page
- From the tools menu, select “**Edit Gallery Images**”

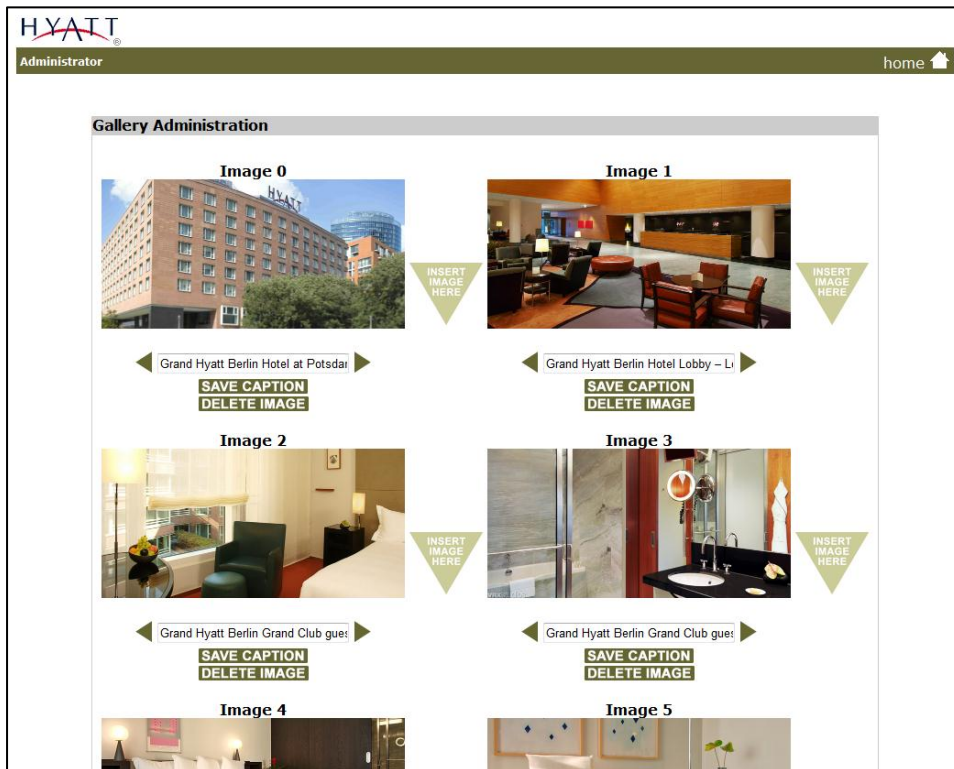

- Select the name of the hotel property which needs to have the gallery updated
- Select the language to be updated\*

A screenshot of a web form with two steps. "Step 1: Property Name" has a dropdown menu with "Grand Hyatt Berlin" selected. "Step 2: Language Name" has a dropdown menu with "English" selected. Both dropdown menus are highlighted with orange rectangles. A green "NEXT" button is located at the bottom right of the form.

*\*Applicable if the hotel offers a full service website in a translated language*

- The Gallery Administration page will display the images in the order they will appear on-line, with the designated captions below each image.

### Updating the Caption

- Select the field under the image and update the text
- Click **“Save Caption”** to save the new text.\*

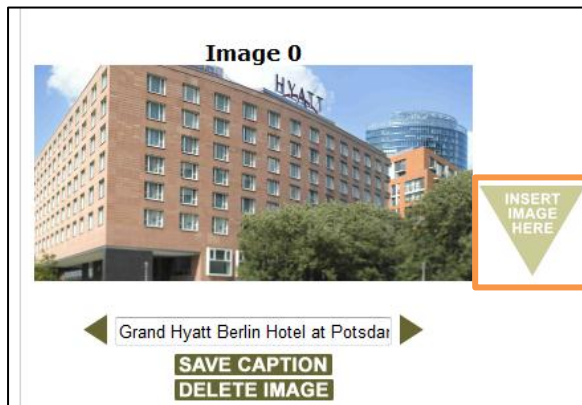

\*see “Considerations” below

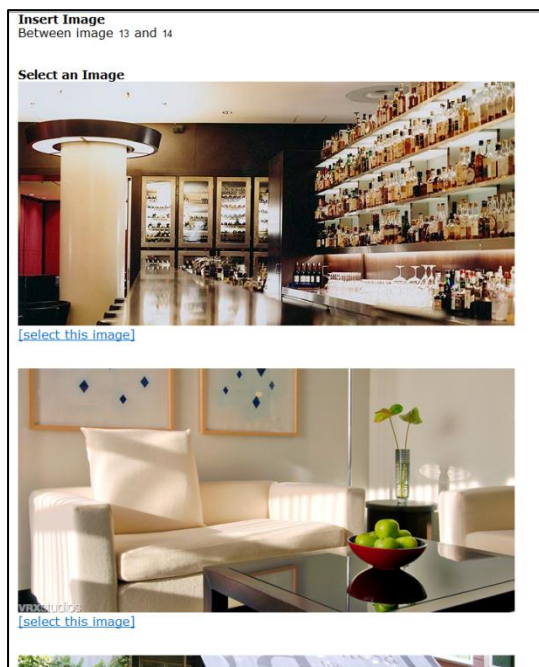

## Adding New Images to the Photo Gallery

- Click “Insert Image Here” in the desired placement for the gallery

- A drop-down of available images will appear. Click the image you would like to add.

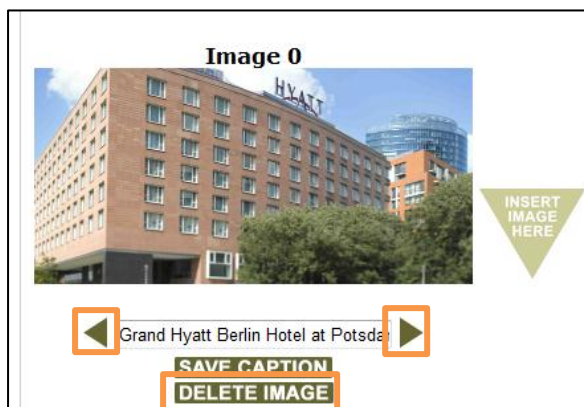

- The Editor will ask for confirmation on the placement. Click “Add Image” to confirm.

## Moving an Image

- There are 2 options for moving an image:
  - o **Arrows** – use the direction arrows either side of the image caption to move the image up or down in the gallery order (recommended approach)
  - o **Delete & Reapply\*** – you can use the delete button to remove the image, then reapply using the “Adding New Images” instructions above.

\*see “Considerations” below

## Considerations

### Adding New Images to Editor

If a hotel requests to add a new gallery image, which needs to be added to the Editor, please contact Hyatt eCommerce Content Team for assistance. Image must be available in Hyatt Brand Manager.

### Updating Captions

You must save the caption update after each, individual update. You cannot change the captions for multiple images and only select “Save Caption” once.

### Delete & Reapply

If deleting an image to reapply please be aware that:

- The image caption may be lost in the transition. This will happen if the caption was not loaded at the same time as the image. For safety, we recommend to copy the text to Word or Notepad before removing the old image.
- The English photo gallery is linked to the photo gallery on translated sites. i.e. if you remove any image from the English site, it will also delete from the translated site, along with the translated caption. This is why we recommend using the arrows to reassign images where possible.

Take a moment to notice the details; turn-of-the-century craftsmanship is evident everywhere in our welcoming downtown Chicago bar and lounge. You can almost hear the city leaders planning the rebuilding of Chicago when you slide onto one of the classic high back upholstered leather bar stools that sit in front of the handcrafted mahogany bar.

Savor one of our fine wines (Stetson's is among an elite group honored with a *Wine Spectator* Award of Excellence), sip your favorite cocktail (our bartender will gladly prepare any mixed drink you desire), or order something on draft and drink in the ambiance. When you're not sipping on specialty cocktails in our stylish lounge indulge in some of the spectacular cuisine offered at Stetson's Chop House.

Main Text

Say aloha (hello) to the greatest Maui family vacation your keiki (kids) will ever have. Here at Camp Hyatt, we create fun and interactive programs for your child to explore the flora, fauna, culture and geography of our fascinating area. We intermingle games and activities with learning experiences, and fill their days with interesting projects and adventures to share with new friends. Some days include Hawaiian cultural themes such as beautiful lei making, hula lessons and much more. On other days, we'll build sandcastles to the sky, explore Hyatt's wildlife, or fish on the banks of the Hyatt stream. Camp Hyatt activities are such a blast, kids will hate to say aloha (goodbye) when the sun sets on each spectacular day of play.

Camp Hyatt operates from 9:00 a.m. to 3:00 p.m. and 6:00 p.m. to 10:00 p.m. daily and promises a fun filled day for our keiki ages five (5) to twelve (12) years. **Advanced reservations are requested by 3:00 p.m. the day prior.** For reservations please call 808-661-1234 x3225 or 808-667-4785. ### Address Information

The address details are taken directly from the hotel home page. If these need to be changed, please review to “Hotel Address and Contact Details” above.

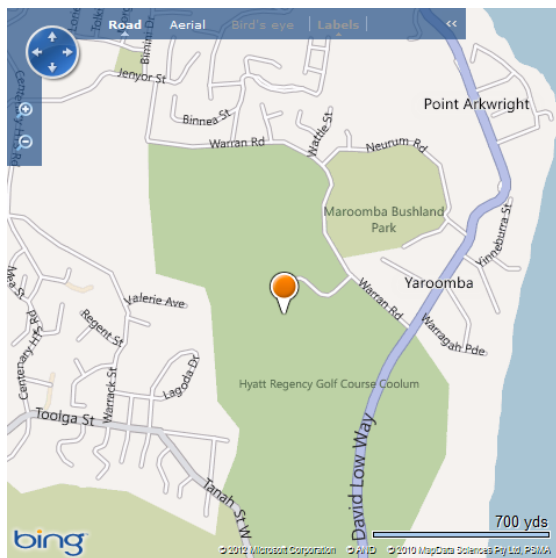

### Map

There are two different page options available to hotels:

- **Dynamic** – An interactive Bing Map with a marker for the hotel’s location
- **Static** – A single gif file showing the hotel’s location in relation to surrounding points of interest. The Static map is loaded on Hyatt Brand Manager and only this map file can be used.

Hotels can only choose one of these options and changes will be handled by the Hyatt eCommerce Content Team.

*Dynamic*

*Static*

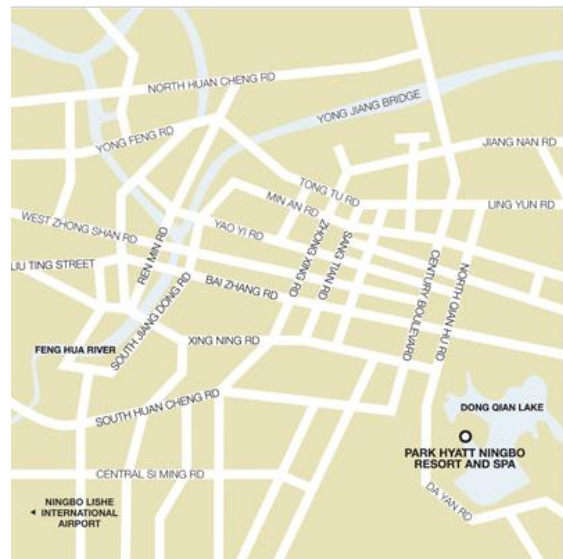

In the case of some locations, the Bing map does not offer the level of detail required to make the Dynamic map a viable option. In cases like these, the Static map will be mandatory for the hotel website.

The static maps available which are used on the websites are only available in English. For select locations, the details on the Bing map are listed in the local language. In case like these, the hotel's location language site can feature the Dynamic map and the English will display the Static map.

Access to the Sunshine Coast is made easy by direct flights into the Sunshine Coast Airport (MCY) and Brisbane Airport (BNE). #### Theme Parties

**Aussie Bush Night**

Visit outback Australia and experience all the fun and entertainment of the Aussie bush. Be greeted by koalas as you head towards the blazing campfire, sit on bales of hay under the Southern Cross and join in some fun storytelling. Dinner is traditional Aussie tucker served in the homestead, complete with waiters dressed in Driza-Bones and Akubras. After dinner, enjoy a singalong with Mulga Mick, or have some toe-tapping fun with an Aussie bush band.

**Dreamtime**

The ultimate celebration of indigenous music and culture. Step back in time to when man first walked our sunburnt land and experience the Dreamtime. This evening is a cultural awakening to the 'Land Downunder', complete with bush tucker such as emu, kangaroo and crocodile. Enhanced by an array of Australian talent, the evening is highlighted by a captivating Australian Dreamtime performance.

**Night of Glamour**

Invite your guests to an evening of black-tie elegance. The candlelit ballroom will set the scene for a night of glamour and celebration with a string quartet providing an air of sophistication.

**Arabian Nights**

A night of opulence in the sultan's desert palace set in a tropical oasis complete with camels. Inside the billowy tent, sample the exotic and unique delicacies of true Middle Eastern cuisine as you recline on your Ottoman cushions. Be pampered by handsome sheiks and desert beauties. Become entranced by the sultry snake charmers and bewitching belly dancers. A truly decadent experience.
